Summary

- Adaptable professional with 1.3 year as a Java full-stack developer and 1 year as a system administrator.
- Proficient in Java, HTML5, CSS3, Angular and related technologies for web application development.
- Experienced in system administration tasks like network configuration and troubleshooting.
- Strong problem-solving abilities and proactive approach to managing software development and system infrastructure.

Experience

System Administrator

MindSquare Technologies (India) Private Limited

Sep 2023 - Present (9 months)

I have been working as a System Administrator, where I am responsible for installing, configuring, and maintaining systems to ensure their security, performance, and user support.

In this role, I manage backups, updates, and documentation to ensure the efficient operation of systems under my purview.

My responsibilities also include troubleshooting technical issues, implementing security measures, and collaborating with other teams to optimize system performance and reliability.

Associate Software Engineer

Mphasis

Dec 2021 - Feb 2023 (1 year 3 months)

Experienced Full Stack Developer proficient in Java and web development, skilled in front-end (HTML, CSS, JavaScript) and back-end (Spring Boot, SQL) technologies.

I spearheaded the development of an internal portal for alumni and current employees. Responsibilities included designing and implementing database schemas, CRUD operations, and user interfaces. Ensured data security, access controls, and integration with internal systems. Actively contributed to portal enhancements based on user feedback and business needs

Desktop Support Engineer

Omnetix

Aug 2021 - Dec 2021 (5 months)

Address user tickets regarding hardware, software and networking

Walk customers through installing applications and computer peripherals

Ask targeted questions to diagnose problems

Guide users with simple, step-by-step instructions

Conduct remote troubleshooting

Education

ANDHRA HIGH SCHOOL , ONGOLE

SSC

2014 - 2015
